

Smart & Healthy Kids

### BRANDING OPTION:

The Playhouse KRYPIN can be tailor made using your own corporate identity. This allows the house to be used as marketing material by you not only at end customers' premises but at shopping centres and other public places as well.

### ABOUT THE PLAYHOUSE KRYPIN:

The Playhouse KRYPIN is sturdy and safe, collapsible and mobile. It takes up minimal storage space and is made of recyclable plastic. A classic concept – one's very own playhouse for children. The product can be used year-round – indoors and outdoors, as it tolerates freezing temperatures. The playhouse is also a tool for educational institutions that encourages and stimulates children's fantasy and creativity.
